RE: Facility Response Plan
Control #67

Dear Mr. Moore:

The Coast Guard Captain of the Port Philadelphia has completed a final review of your facility response plan submitted to meet the requirements of the Oil Pollution Act of 1990 (OPA 90). No deficiencies have been noted and your plan is hereby approved. The expiration date of this approval is May 27, 2002. Prior to this date, you are required to resubmit your facility response plan to the Coast Guard for reapproval.

Response plans submitted for reapproval must be written to be consistent with the National Contingency Plan (NCP) and the applicable Area Contingency Plan (ACP). In addition, the plan will have to be resubmitted whenever a significant change occurs at the facility that would have an effect on the response plan.

Sincerely,

A handwritten signature in cursive script that reads "S. A. Budka".

S. A. BUDKA
Lieutenant
U. S. Coast Guard
Chief, Waterways and Waterfront Facilities
By direction of the Captain of the Port
